## **PROFESSIONAL SUMMARY**

Software Developer with over 2 years of experience in Software development, proficient in Kotlin, Java, Swift, JavaScript, TypeScript, Node.js, and PostgreSQL. Proven ability to provide top-tier solutions for mobile applications, with a focus on adding value to customers and maintaining deliverables in compliance with product roadmaps. Skilled in debugging application concerns and managing tasks using an Agile framework. Excellent communication skills demonstrated through collaboration with product management teams and developers. I have experience in native iOS development and a keen interest in weightlifting and calisthenics training. Looking forward to bringing a positive human impact through code in a dynamic team environment.

## **WORK EXPERIENCE**

### **NetWeb Software**

**Gujarat, India**

#### **Software Developer**

Jan 2019 – Nov 2021

- Worked with developers to provide top-tier solutions for restaurant customers, including new capabilities for proprietary applications used on phones and tablets.
- Maintaining long- and short-term deliverables in compliance with product roadmaps in collaboration with the product management team.
- Debugged important application concerns like crashes, memory leaks, and concurrency difficulties by writing unit tests for programming.
- Using an Agile framework, tasks were managed and completed.
- Worked on **Java, JavaScript, HTML, CSS, SQL**.

## **PROJECTS**

### **E-Commerce App in Kotlin**

Oct 2021

- Developed an E-Commerce Shop App using Kotlin, providing a platform for users to buy and sell products. Enabled users to browse and purchase items listed by other users, facilitating a dynamic marketplace environment.
- Utilized Cloud Firestore for secure and scalable data storage, ensuring efficient handling of user data.
- Focused on creating an intuitive user interface and seamless user experience, leading to increased user satisfaction and app engagement.

### **Tutorial App in Java**

Feb 2022

- Developed a Tutorial App on Android that allows users to watch lectures on various topics, take notes, and mark them as 'Read' or 'Unread'.
- Utilized "shared preferences" to save users' notes and login information for future access, ensuring a seamless user experience.
- Prioritized user experience by allowing users to manage their learning progress through features like marking lectures as 'Read' or 'Unread'. And implemented a 'skip login' feature to enhance user convenience and accessibility.

### **Toronto Attractions App in Swift**

July 2022

- Developed a Toronto Attractions App using Swift that recommends various tourist attractions in Toronto and allows users to book, alter, or delete tickets.
- Utilized user defaults to save users' login and ticket purchase information for future access, ensuring a seamless user experience.
- Implemented features allowing users to manage their bookings, enhancing the app's usability and engagement. Designed and implemented custom cells to display purchased tickets, improving the app's visual appeal and functionality.

### **Weather App in Kotlin and Swift**

July 2022

- Developed a weather app using Kotlin and Swift that provides real-time weather updates based on the user's location.
- Utilized APIs to fetch real-time weather data, ensuring the app provides the most up-to-date information to the users. Integrated the OpenWeatherMap API for the Kotlin app and the MyWeather API for the Swift app to fetch and display accurate weather data.
- Focused on creating an intuitive user interface and seamless user experience, leading to increased user satisfaction and app engagement. Implemented features allowing the app to automatically update the weather based on the user's location, enhancing the app's usability and engagement.

## **EDUCATION**

**George Brown College**

**Toronto, Ontario**

Postgraduate Certificate in Cloud Computing and Technology, **Cumulative GPA: 4.00/4.00**

**George Brown College**

**Toronto, Ontario**

Postgraduate Certificate in Mobile Application Development and Strategy, **Cumulative GPA: 3.00/4.00**

**Gujarat Technological University**

**Gujarat, India**

Bachelor of Engineering in Computer Science

## **TECHNICAL SKILLS**

Kotlin, Java, Swift, JavaScript, TypeScript, DART, Python, DynamoDB, HTML, CSS, SQL, C++, ReactJS, Git, CICD, SQL Server, JEE, API, Node.js, GraphQL, Angular, Amazon RDS, Spring Boot, Flutter, Room, Firestore, MySQL, SQLite3, Android Studio, XCode, Bash, Visual Studio, IntelliJ, Golang, Turbo C++, OOPS, Data Structures & Algorithms, Microsoft Azure, Amazon Web Services (AWS), Windows, Mac OS, Linux, Web Development, Cross Platform Application Development, Mobile Application Strategy, Information & Network Security, Data Mining & Business Intelligence, Database Management system, Project Management.

## **CERTIFICATES**

**Udemy – The Complete Android 10 & Kotlin Development Masterclass**

Oct 2021

**Udemy - Complete Android 11 Jetpack Masterclass**

Nov 2021

## **SOFT SKILLS**

Effective communicator, Decisive & Calm under pressure, Collaborative & Proactive, Critical Thinker, quickly learn new technologies, Performance driven.
